

Dear Customer,

Fuel Surcharge - 2026

You will be aware that following the unrest in the Middle East, global fuel prices have continued to surge. To date the Port has absorbed these significant increases in fuel prices, however we cannot continue to absorb these material unbudgeted and unforeseen increases and are therefore forced to take appropriate measures to recover its costs

As such please be advised of the following surcharge to be brought into effect at the Port of East Anglia from 01st May 2026.

Pilot Transfer Fuel Surcharge

The Ports published Port Charges document will be updated to include a 'Pilot Transfer Fuel Surcharge' of £75.00 per pilotage transfer.

The application of the above surcharge is not a decision we make lightly. We appreciate the difficulties that have been faced by the supply chain over the recent months, and we hope that the global trend of increased fuel prices stabilises over the next few months.

We will continue to monitor these costs over the coming months and provide further updates as further information becomes available.

Thank you for your understanding and continued support.

For and on behalf of the Port of East Anglia

Yours sincerely,

A handwritten signature in black ink, appearing to read "D. Goffin".
