 - (i) any failure or inability of any Port User (including the master or owner of a vessel) to comply with their obligations under applicable laws or with all statutes, byelaws, regulations, and lawful directions issued from time to time by the Company, the Harbour Master, or other appropriate officers of the Company.
12. The Company does not take any charge of or assume any responsibility whatsoever in respect of any vessel navigating or lying within the Port or entering, leaving, moving, mooring, or unmooring within the Port; all vessels under such circumstances being at the sole risk of the owner, who alone is responsible for the safety and security of their vessel and moorings and also for any damage done by their vessel or servants to the Port, any of the Company's property, or to vessels or goods within or upon any part of the Port.
13. When complying with the lawful directions of the Harbour Master or other appropriate officers of the Company, every vessel will remain at the risk of the owner thereof, and all things done, whether by the Company or the owner, in pursuance of execution or intended execution of such directions will be deemed to be done by the owner and all costs and expenses incurred, including those issued by the Company, will be for the owner's account.
14. Unless the Company agrees to the contrary, the owner of a vessel warrants that any vessel that it brings into or causes to be within the Port will be:
- (a) seaworthy and operated in compliance with all relevant international standards and regulatory requirements (including, by way of example only, the ISM Code, flag state, classification society and UK Maritime & Coastguard Agency or equivalent) regarding safety, stability, seaworthiness, fitness for purpose and security;
 - (b) covered by P&I insurance with reputable P&I or London market insurers in respect of third-party liability risks (including but not limited to goods (cargo) damage, pollution, and wreck removal) and for levels of cover as would normally be taken out by a prudent operator of comparable vessels in similar trades;
- and shall ensure that the vessel is operated and covered by P&I insurance in accordance with requirements (a) and (b) above, respectively, at all times that the vessel is within the Port and must provide to the Company on demand documentary evidence of such status.

15. Unless the Company agrees to the contrary, paragraph 5 of part 2 of schedule 7 of the Merchant Shipping Act 1995 will not apply in respect of any claim the Company may have in relation to a vessel using the Port or the Pilotage District.
16. When an agent for a vessel ceases to act while that vessel is within the Port and does not accept responsibility for all dues and charges arising, that agent must notify the Company immediately so that charges may be correctly debited to the responsible parties.
17. Unless the Company agrees to the contrary, the Port User warrants that it has and will maintain insurance with a reputable insurer in respect of third party and, when necessary, employer's liability in relation to its use of the Port in an amount that will afford adequate cover against the risks concerned. The Port User must provide to the Company on demand documentary evidence of such insurance.
18. Unless the Company agrees to the contrary, the owner warrants that, while within the Port, any goods:
 - (a) are not dangerous, hazardous, poisonous, toxic, radioactive, flammable, or injurious, whether by emitting dust, gas, fumes, liquid, or otherwise, or liable to become so;

 - (e) do not comprise or contain unauthorised controlled substances, contraband, pornographic, sanctioned, or other illegal matter;

The Company will be entitled (but is not obliged), at the owner's sole risk and expense, to remove and dispose of goods that are not in compliance with any part of this warranty.

19. By landing or depositing goods anywhere within the Port, the owner of the goods and the owner of the vessel (from which the goods were discharged or onto which the goods are to be loaded) jointly and severally indemnify the Company against any claims

for HM Revenue & Customs duties or other taxes on the goods and for any other claims or fines against the Company from other local and national regulatory authorities or agencies in connection with the owners' use of the Port.

20. All goods within the Port (whether in transit, laid down or deposited) are at the owner's sole risk in every respect. The Company has no custody of such goods and accepts no responsibility for any loss or damage to such goods, whatever the cause, even if the loss or damage is caused by any act or neglect on the part of the Company's servants, agents, or subcontractors.
21. Goods are not in the Company's custody unless handled and stored by the Company, in which case the Company's relevant terms and conditions in force from time to time for handling and storing goods will apply.
22. When discharging or loading a vessel, the Company may, on request, furnish to the owner or agent an estimate, to the best of its ability, of the time at which discharging or loading is likely to finish. In giving this estimate, the Company accepts no responsibility for any inaccuracy or for any delay in finishing discharging or loading.
23. The Port User agrees and acknowledges that any general security provided by the Company at the Port does not in any way diminish the Port User's responsibility for the security and safekeeping of any vessel, goods or any other item or material brought into the Port. The Company makes no warranty or representation to the Port User that such security will be adequate or sufficient for the Port User's purpose.
24. The Port User warrants that it has and will maintain at its own expense any and all necessary permits, licences, or authorizations relating to its use of the Port.
25. The Port User must not bring any cranes or heavy mobile plant or equipment onto any quay unless the Company's prior written consent has been given, and the Port User must comply with any terms and conditions of such consent.
26. The Port User will not cause or permit any quay used by the Port User to be loaded in excess of the quay's load-bearing capacity. It is the Port User's responsibility to ascertain from the Company the load-bearing capacity of the quay.
27. The Port User will not deposit, permit, or suffer to be deposited or done within the Port anything that the Company, the Port Health Authority, the Environment Agency, any other civil authority or local or national regulatory body may consider dangerous or a nuisance, and the Port User will remove anything so deposited at its own expense. If, in the opinion of the Company, the Port User fails to carry out any of the requirements of this clause, the Company may undertake the necessary work at the expense of the Port User.
28. The Port User will comply in all respects with all relevant standards and conditions imposed by any civil authority or local or national regulatory body, including but not

limited to the Environment Agency, or any successor or equivalent body thereto, in respect of the operations carried out within the Port by or on behalf of the Port User.

29. The Port User will take all reasonable precautions to prevent materials, substances, articles, or other deposits from falling into or entering the Port, and in any such event, the Port User will be responsible for removing the same from the Port at the Port User's expense. The Port User will be liable for, and agrees to indemnify, defend, and hold harmless the Company against all claims, costs, expenses, actions, proceedings, suits, demands, and liabilities whatsoever arising out of actual or threatened pollution damage and the cost of clean-up or control thereof arising from acts or omissions of the Port User (including its employees, agents, or subcontractors) that cause or allow discharge, spills, or leaks from any vessel, goods, road or rail transport, plant, or equipment, or otherwise of any item or material concerning the Port User's activities within the Port.
30. Except where specified herein to the contrary, all charges specified hereunder are payable to the Company on demand unless otherwise agreed by the Company.

34. The Company may agree to allow a Port User or its agent a credit account in relation to certain charges, subject to such conditions (such as but not limited to the period of credit) that the Company may specify from time to time.
35. If the Company (acting reasonably) considers that there is a risk that any charges levied or any future charges to be levied may not be paid by the relevant due date, the Company reserve the right, upon giving the Port User, or its agent, notice, to immediately withdraw any credit arrangement agreed and to require payment in advance (where applicable) or immediate payment on demand of the whole or part of its charges.
36. The Company reserves all its statutory rights in relation to the recovery of charges owing to it, including its rights to distrain, arrest, or sell vessels or goods for non-payment of charges in respect of such vessels or goods.

37. The Company may, subject to any statutory requirements to the contrary, at any time demand pre-payment of the whole or part of its charges.
38. Without prejudice and in addition to any other right or remedy, the Company reserves the right to charge interest at the rate of 4% above the then prevailing Lloyds Bank Base Rate (or, in the election of the Company, statutory interest under the Late Payment of Commercial Debts (Interest) Act 1998) on all amounts overdue and such interest will accrue on a daily basis until payment is received.
39. All charges due and owing to the Company must be paid to the Company without set-off, withholding, or deduction of any kind.
40. Where a Port User appoints an agent to pay any charges to the Company, the Port User remains ultimately responsible and liable in the event of non-payment of any such charges by its agent.
41. Nothing in these General Terms and Conditions and Charging Provisions will prejudice the Company's right to rely on any contract, convention, or statutory provision providing for limitation or exclusion of liability, including the provisions of the Merchant Shipping Acts and subordinate legislation.
42. The Company may collect and process information relating to a Port User and its appointed agent in accordance with the privacy notice that is available on the Peel Ports Group website. Each party agrees to comply with their respective obligations under the Data Protection Legislation.
43. These General Terms and Conditions and Charging Provisions cannot be varied other than in writing by the Company.
44. These General Terms and Conditions and Charging Provisions will continue to apply except where varied from time to time by the Company and in such manner as the Company may determine.
45. The rights and powers of the Company under these General Terms and Conditions and Charging Provisions are in addition to and not in substitution for the rights and powers of the Company as the statutory harbour authority for the Port and its approaches or as the competent harbour authority for the Pilotage District, and nothing in these General Terms and Conditions and Charging Provisions will restrict, prejudice, or affect the Company's rights, powers, and duties in the exercise of its statutory functions.
46. These terms will be governed and construed according to the Laws of England by the English Courts to the exclusion of the jurisdiction of the courts of any other country.

Audit

The Company reserves the right, upon the giving of reasonable notice to the owner (and their appointed agents), master, Cargo Operator, cargo receiver or cargo shipper, to require the production of, and to receive, view and/or copy, any relevant document or material within

that party's reasonable control that demonstrates and evidences the quantum or movement of any goods that may be received, loaded, discharged, delivered, stored or otherwise handled within the Port. Such documentation and materials must be provided to the Company upon request, without charge and during the Company's normal working hours.

For the purposes of undertaking periodic audits, the Company also reserves the right to review any recordings, data, reports or measurements (including but not limited to CCTV, ANPR, etc.) produced from equipment under the control of any party and used to receive, load, discharge, deliver, store or monitor goods.

Withdrawal of the United Kingdom from the European Union “Brexit”

The Company reserves all rights to introduce a Brexit surcharge or associated additional charges should legislative changes dictate a material change to the Company’s operational activities during 2026. These activities include, but are not limited to, the physical presentation of goods for examination, examination activity, or supporting administration.

Company land rights and use of natural resources

All Port Users must seek the Company's permission before exploiting the Port’s natural resources, including, but not limited to, exploitation via water abstraction and discharge, marine capture, sand abstraction, harnessing of wind and wave energy, and installation of cables, pipelines or other infrastructure, equipment or kit designed to make direct or indirect use of such natural resources.

The Company is entitled to charge Port Users in relation to such exploitation of the Port’s natural resources (“Land Exploitation Levy”). Such charge may reflect the value of the resources themselves and the costs incurred by the Company in re-directing its marine operations to accommodate the Port Users’ activities.

Seafarers’ wages declaration

Under the Seafarers’ Wages Act 2023 (the “Act”) and relevant regulations, from 1 December 2024, the Company is required to demand a declaration from vessel operators that all seafarers onboard vessels are paid a wage at least equivalent to the UK’s national minimum wage while working in UK territorial waters. Failure to provide this declaration will result in a surcharge under the terms of the Act, plus an additional Port administration fee. Failure to pay the surcharge applied under the Act may result in a refusal of access.

 - (ii) moving a vessel along a quayside by any method other than warping;

 - (iv) returning a vessel to the same berth with an enclosed dock system after swinging.
- (e) The Company does not guarantee that any Pilot or pilot launch will be available at any particular time. The Company will not be liable for any loss, delay, expense, or additional cost arising out of or in connection with the non-availability, late availability, or withdrawal of any Pilot or pilot launch.

- (f) Where a Pilot booking does not comply with the applicable procedures for Estimated Time of Arrival (“ETA”) or Estimated Time of Departure (“ETD”) notifications under the Pilotage Directions, including because the Pilot booking is made at short notice, a surcharge is payable in addition to all other charges. The surcharge will be calculated as 50% of the relevant pilotage charge in the case of an ETA failure (an “ETA Failure Surcharge”) and 25% of the relevant pilotage charge in the case of an ETD failure (an “ETD Failure Surcharge”), in each case calculated before the application of any other surcharge.

 - (iii) In respect of an inward-bound vessel, a change in the vessel’s expected arrival time that does not require an amended ETA under the Pilotage Directions will not, of itself, constitute an amendment to the Pilot booking. Where the booked Pilot boarding time is changed at the request of the owner, master, operator or agent, the Pilot booking will be treated as amended for the purposes of this paragraph.
 - (iv) The amendment or cancellation charge specified in sub-paragraph (i) or (ii) of this paragraph will be doubled if, before the relevant Pilot booking is amended or cancelled, the Pilot has attended on board without conducting the vessel, boarded the pilot launch, or attended at the customary boarding location.
 - (v) An amendment to a Pilot booking must comply with the applicable procedures for ETA or ETD notifications, including the requirements applicable to a Pilot booking made at short notice, under the Pilotage Directions. If those procedures are not followed, the ETA Failure Surcharge or ETD Failure Surcharge, as applicable, is payable in respect of the amended ETA or ETD notification, in addition to any amendment or cancellation charge payable under this paragraph in respect of the original Pilot booking.
 - (vi) For the avoidance of doubt, an amendment or cancellation charge under this paragraph relates to the original Pilot booking. The ETA Failure Surcharge or ETD Failure Surcharge, as applicable, relates to non-compliance with the applicable ETA or ETD notification requirements under the Pilotage Directions and is payable separately, even where both charges arise from the timing of the same amendment to a Pilot booking.

- (h) Where a Pilot booking for an outward-bound vessel or for a vessel navigating or moving within the Pilotage District entirely to the south of an imaginary straight line drawn between the Royal Seaforth Dock Radar Tower and Fort Perch Rock is made, cancelled or amended outside any of the following periods: 0800 hours to 1630 hours on weekdays (except on a Bank or Public Holiday), 0900 hours to 1200 hours on Saturdays (except on a Bank or Public Holiday), or 0800 hours to 1000 hours on Sundays and Bank or Public Holidays, an out-of-hours charge of **£287** is payable.

 - (iii) For each period of 60 minutes (or part thereof) that a vessel is at anchor for the vessel's business with a Pilot on board, including where a pilot is requested to board a vessel early and remain at anchor, an anchorage charge of **£287** is payable.
- (j) **Remaining on board**
- (i) For each hour (or part thereof) in excess of the first two hours that a Pilot booked for an outward vessel remains at the boarding point before sailing, a charge of **£287** is payable.
 - (ii) If a Pilot remains on board either an inward vessel or a vessel that has navigated or moved within the Pilotage District due to either a request/direction to remain on board or because there is no safe means for the Pilot to disembark from the vessel (unless due to prevailing weather conditions, in which case the provisions of section 2(i) will apply), a charge of **£287** per hour (or part thereof) is payable from the time that the vessel is all fast until such time as the Pilot has disembarked or commences a further act of pilotage, whichever is sooner.
- (k) Except as provided in section 2(l), when a Pilot is carried beyond or is boarded beyond the Pilotage District, any landing fees, travel, or hotel charges incurred by the Pilot resulting from being carried beyond or boarded beyond the Pilotage District are payable together with the following sums (as applicable) for each day, or part thereof, that the Pilot is away from home due to being carried beyond or boarded beyond the Pilotage District:

Location beyond the Pilotage District	Charge per day
Irish Sea Ports (including Douglas I.O.M.)	£1,125
Other UK and Irish Ports	£3,064

This includes, without limitation, circumstances in which a Pilot is carried beyond the Pilotage District without the Pilot's consent.)

If a Pilot travels to a point beyond the Pilotage District to board an inward-bound vessel and the booking is cancelled and the Pilot cannot be assigned to another inward-bound vessel from the same point on the same tide, the charges as specified in this section 2(k), in addition to any other cancellation charges, are payable.

The charges and expenses specified in this section 2(k) are cumulative and are payable in addition to any pilotage charge, cancellation charge, amendment charge, out-of-hours charge, or other charge payable under this Part 2.

- (l) For boarding or landing a Pilot at Lynas Pilot Station, Anglesey, a charge of **£1,811** per Pilot is payable. If a Pilot must be boarded or landed at Lynas Pilot Station owing to severe weather, the charge payable is **£903** per Pilot. If a Pilot travels to Lynas Pilot Station and the booking is cancelled after the Pilot has arrived there, a charge of **£1,811** is payable in addition to any other cancellation charges that may be applicable.
