

NOTICE TO MARINERS

No 29/18

RIVER CLYDE, QUEENS QUAY – QUAY REPAIR WORKS

Chart 2007 Plan B

Mariners are advised that quay repair works are scheduled to take place from Tuesday 27th January 2018, for a period of approximately 9 months. The works will be conducted entirely within the basin at Queens Quay (adjacent former John Brown Shipyard) and will include concrete repairs, installation of new sheet piling wall and new cope with railings. To complete the concrete repairs divers will be employed for sections of the work which cannot be completed at low water. Appropriate shapes and lights will be displayed by the dive support vessel. Vessels in the area should monitor VHF Ch12 as broadcasts will be made by Estuary Radio to advise of diving operations.

A spud leg barge (CW3) will be used as a platform to conduct the works.

Mariners are asked to navigate with caution and to avoid entering the basin during these works. Estuary Radio may be contacted on VHF 12 or on ☎ 0151 949 6651.
