HELENSBURGH SEA CADETS – SMALL CRAFT ACTIVITY IN THE GARELOCH FOR 2018

Helensburgh Sea Cadets are members of Helensburgh Sailing Club which is where we conduct most of our afloat activity and where we keep 2 sailing craft, 2 pulling boats and a canoe trailer. We plan to conduct sailing, rowing and paddlesport on Tuesday and Thursday evenings from 1700 to sunset. We may also operate on other weekdays and at week-ends as arranged with HSC.

In addition we have permission from Captain of The Base, HMNB Clyde, to conduct sailing, powerboating, rowing and paddlesport from the jetty at Rhu Offsite Centre on weekdays from 1700 to sunset and at weekends at any time between sunrise and sunset. This is of course subject to not interfering with any MOD activity at the Offsite Centre. We also have permission to store boats within the perimeter of the OSC from March to October. Normally this is where we keep our two power boats.

Our boating season runs from 1 April to 31 October. We use an area covering the width of the loch as far north as Blairvadach Outdoor Centre and south to the point of Kidston Park. Power boats, paddle craft, rowing craft and sailing boats will never plan to use the main channel other than to cross it. All adults supervising water activities are well aware of the separation required on MOD craft and especially those that are big and black.

In addition the Northern Area Sea Cadets Summer Camp is likely to use the Offsite Centre and the waters above from 0900-1700 from Saturday 21 July to Saturday 28 July inclusive.
