Surveys of other areas within the COL jurisdiction are carried out as required.

Hydrographic surveys are undertaken to enable Port users to have available to them information relevant to their areas of operations so that effective passage planning can be undertaken.

The provision of printed copies of charts is a chargeable service. Any enquiries regarding hydrographic survey charts should be directed to [charts@peelports.com](mailto:charts@peelports.com)

Charts are provided on the basis that whilst every care is taken in the preparation of such charts, they are provided for general information only and are based on the data which the Port Authority possessed at the time of their preparation. It is not intended to amount to advice that can be relied upon thereafter. Although the Port Authority makes all reasonable efforts to update the information on charts, it makes no representations, warranties or guarantees, whether express or implied, that the charts are accurate, complete or up to date. No responsibility can be accepted by COL for any inaccuracy in any chart or any omission therefrom.
