

# NOTICE TO MARINERS

## №12 - 2019

### HARBOUR AND PORT OF MANCHESTER

#### GUIDING LIGHTS - CHANGE OF CHARACTERISTICS

NOTICE IS HEREBY GIVEN that following the trial whereby the characteristics of all non-fixed guiding lights between Jack's Castle (light №14) and Ince High Cutting (light №60) were changed from Fl. 3s to Iso. 2s, the decision has been taken to make this change permanent with immediate effect.

For the avoidance of doubt, any guiding lights with fixed characteristics between Jack's Castle (light №14) and Ince High Cutting (light №60) are not affected by this change.

Furthermore, the two temporary guiding lights on the remains of Stanlow Wharf will become permanent guiding lights. The particulars of these two lights are as follows:

**Downstream:** Light №55A Iso. Y. 2s (53° 17.2117'N 002° 52.8158'W)

**Upstream:** Light №55B Iso. Y. 2s (53° 17.2103'N 002° 52.7680'W)
