NOTICE TO MARINERS

№27 – 2020

PORT OF LIVERPOOL

REPLACEMENT OF AIDS TO NAVIGATION

NOTICE IS HEREBY GIVEN that on 8 August 2020 work is to commence on the replacement of the aids to navigation marking the following breakwaters off New Brighton—

- **Lighthouse Groyne No.11**  53° 26' 45.46" N  003° 02' 46.82" W
- **Fort Groyne No.12**  53° 26' 35.41" N  003° 02' 11.67" W
- **Victoria Island No.13**  53° 26' 26.63" N  003° 02' 06.36" W

This work will involve the use of the jack-up barge *Haven Seariser 1* supported by the barge *CW-8* and the workboats *Vector* and *Vital*. The safety boat *Deemen* will also be in attendance. These vessels will maintain a listening watch on VHF Ch.12 and display the appropriate lights and shapes required in accordance with the International Regulations for Preventing Collisions at Sea and the Mersey Channel Collision Rules, as appropriate.

The *Haven Seariser 1* will commence operations at Lighthouse Groyne, before relocating to Fort Groyne followed by Victoria Island. For the duration of the work, the *CW-8, Vector* and *Vital* will be engaged moving equipment and materials between the jack-up barge and Carmet Marine’s slipway at Bromborough.

Whilst the *Haven Seariser 1* is on station off New Brighton, vessels not involved with the work must give the jack-up barge a wide berth and pass at a suitable speed through the water to minimize the effects of wash.
This work is expected to take until the end of August 2020, and this Notice will remain in force until confirmation is received that the work has been completed.
