

# NOTICE TO MARINERS

## №44 – 2020

## PORT OF LIVERPOOL

### CENTRE PARK LINK BRIDGE

NOTICE IS HEREBY GIVEN that construction of the Centre Park Link Bridge, located on the upper Mersey approximately 460 m upstream of the Walton Railway Viaduct №1 (Twelve Arches Viaduct), has been completed.

As built, the minimum soffit level of the Centre Park Link Bridge is 8.654 m above Ordnance Datum (Newlyn).

Mariners intending to pass under the Centre Park Link Bridge must satisfy themselves that there is sufficient clearance for their vessels to pass safely. For guidance, in this section of the River Mersey, the water level at mean high water springs (MHWS) is 6.3 m above Ordnance Datum (Newlyn).

Notice to Mariners №3/2020 is withdrawn.
