

NOTICE TO MARINERS – No. 16 2021

PORT OF GREAT YARMOUTH

New Lifting Bridge – Construction update 1

Further to NTM 11/2021, NOTICE IS HEREBY GIVEN that marine construction work on the new lifting bridge project has significantly progressed.

The Western Bascule pit has been substantively completed and the new permanent infrastructure in the river alters the pre-existing Tidal flows. This change will affect all Vessels navigating in the vicinity.

On 22nd July HAVEN SEARISER 3 will relocate from Berth 31 and commence works at Berth 14 including excavation of quayside and installation of piles to form the foundation of the Eastern bascule pit (see Annex 1 for location diagram). Piling from jack-up barge HAVEN SEARISER 3 will continue, supported by multi-cat vessel SHEERKHAN and flat-top barge BCDK 6464 (see Annex 2 for pictures of the vessels).

Regular movements of these vessels will be undertaken in the immediate vicinity and they may be moored on either side of the river. All vessels and any over-side work locations will be efficiently illuminated during hours of darkness and in restricted visibility.

Mariners should maintain a listening watch on VHF Ch12 at all times, approach the area with caution, pass at the slowest safe manoeuvrable speed and keep well clear. No swinging of vessels will be permitted in the vicinity of the work area. If in doubt or if requiring further information vessels should contact Yarmouth Radio on VHF Channel 12 or telephone +44 (0)1493 335511
