Mode Wheel Locks to No.6 Dock Entrance

Upon Consultation

(†) = additional draught restrictions apply for vessels exceeding 21.94m beam.

These draughts have been calculated using the survey information that MSCC possessed at the time of preparation of this Notice.

Water levels in the Harbour are maintained, as far as circumstances permit, to enable these draughts to be achieved with under keel clearances of 0.3m alongside berths and in docks and 0.6m in the fairway.

This Notice to Mariners supersedes the details of draughts given in any previous Notices, which are withdrawn.
