

Mariners are advised that work to remove and replace the existing beacon at Shieldhall in the River Clyde is planned from 27th to 31st August 2026. In order to complete the works, the light will be extinguished throughout this period.

All work will be carried out from landside with no marine craft involvement. Mariners should navigate with additional caution when transiting the area.

This Notice will be cancelled when the light is restored to charted characteristics.
