

NOTICE TO MARINERS No 03/22 ARDROSSAN HARBOUR – DIVING OPERATIONS

Chart 1866 Plan A

Mariners are advised that diving operations to conduct repairs and maintenance below the waterline on the Arran, Winton and Irish Berths at Ardrossan Harbour are under way. Diving will normally take place outside timetabled ferry movements, ie early evening/overnight. All appropriate flags and shapes will be displayed during diving operations.

Vessels are requested to call Ardrossan Radio on VHF Ch12 and Shearwater Diving on same channel for information before entering or leaving the Harbour. Care should be given to the effects of wash when navigating within the Harbour area.

This work is expected to complete mid-September 2022.
