

# NOTICE TO MARINERS

## №4 – 2024

### HEYSHAM HARBOUR

#### DIVING INSPECTION OF THE MOORING MONOPILE

NOTICE IS HEREBY GIVEN that a diving inspection of the mooring monopile (situated at the seaward end of the jetty between Linkspans №2 and №3) is scheduled to take place between 25 April and 27 April 2024.

Operations will be conducted from the dive-support vessel *Halcyon Days*, which will maintain a listening watch on VHF Ch. 14.

Heysham Port Control will issue local navigation warnings when divers are in the water, at which times vessels must not navigate to the east of a line drawn between the North Pier and the South Pier roundheads (“the Controlled Area”). Notwithstanding, the divers will exit the water for scheduled vessel movements, but confirmation that the divers are clear must be received and acknowledged by the vessel intending to navigate within the Controlled Area.

Unless notice is given to the contrary, this Notice will be withdrawn at 23.59 on 27 April 2024.
