

NOTICE TO MARINERS

№75 – 2022

PORT OF LIVERPOOL

WALLASEY EMBANKMENT REINFORCEMENT

NOTICE IS HEREBY GIVEN that work is due to commence today reinforcing the toe of the Wallasey Embankment.

The work, in accordance with Marine Management Organisation Licence L/2021/00201/1, is along the Liverpool Bay foreshore between Leasowe Corner (53° 24' 59.4" N 003° 07' 08.1" W) and Dove Point (53° 24' 43.6" N 003° 08' 23.1" W) and will involve the placement of rock armour at the toe of the pile line of the Wallasey Embankment.

The placement of the rock armour, using shore-based machinery, will take place over low water periods occurring between 06.00 and 18.00.

This work is expected to be completed by 23 September 2022.

Small vessels navigating in this area over high water periods must give the Wallasey Embankment a wide berth.

Unless notice is given to the contrary, this Notice will be withdrawn at 18.00 on 23 September 2022.
