Dear Customer,

Fuel Surcharge Quarterly Review

Please be advised that the periodical revision of the fuel surcharge has now been concluded, and as you will be aware over the last three months fuel price inflation has remained at a significantly inflated value. The below chart provides the impact on fuel prices using purchases in January 2022 as the base.

Therefore, the temporary fuel surcharge implemented on 01st May 2022 will remain at the same level and will be reviewed again in three months' time.

Thank you for understanding and continued support.
