Dear Customer,

Fuel Surcharge Quarterly Review – 1st May 2024

Please be advised that the quarterly revision of the fuel surcharge has now been concluded. The fuel prices have trended downwards over the preceding period, although trended slightly upwards in recent weeks. The prices still remains higher than planned. The below chart provides the impact on fuel prices using purchases in January 2022 as the base.

Therefore, the temporary fuel surcharge implemented on 01st May 2022 will remain in place but will be reduced to £9.38 per arrival or departure, which is a quarter of the current rate. To be reviewed again in three months' time.

Thank you for your continued support.

Yours sincerely,
