Notice to Mariners № 41 - 2026

AtoN Consultation – Disestablishment of River Port Foghorn

NOTICE IS HEREBY GIVEN that following the 2026 formal review of Aids to Navigation and the recently reported audible deficiencies identified with the River Port Foghorn, The Port of Great Yarmouth intends to disestablish the foghorn.

Internal discussion and assessment have led the Port to consider disestablishing the foghorn as an Aid to Navigation (AtoN). Wider consultation is now sought on the proposal to permanently disestablish the foghorn from service, which will assist in the decision-making process.

Anyone wishing to comment on the proposed disestablishment of the River Port Foghorn should submit their response to greatyarmouthharbouroffice@peelports.com before 18 December 2026.

A further Notice to Mariners will be published to promulgate the final decision.
