

# NOTICE TO MARINERS

## No 54 – 2025

### HARBOUR AND PORT OF MANCHESTER

#### LIGHTING AT INCE OIL BERTH

NOTICE IS HEREBY GIVEN that flood lighting at Ince Oil Berth may, in certain circumstances (particularly for larger vessels), present a dazzle risk for inward-bound vessels approaching and passing the berth or when coming alongside at the berth.

During the hours of darkness, mariners must exercise caution when approaching Ince Oil Berth from downstream.

Furthermore, vessels under the navigational conduct of a Pilot will be restricted to navigating during daylight hours when passing Ince Oil Berth inward bound or when coming alongside at the berth.

MSCC is liaising with the berth operator and the Manchester Pilots regarding suitable mitigation measures, such as realigning the floodlights and installing additional guiding lights (aids to navigation).
