

NOTICE TO MARINERS – No. 34: 13/11/ 2023

PORT OF GREAT YARMOUTH

Great Yarmouth Third River Crossing Dredging

MARINERS ARE HEREBY ADVISED that The Stour multicat, DMS Condor and Hurst Tug will be working at Berth 31D and will commence dredging works in front of the Southern Pontoon at Herring Bridge (see Annex 1 & 2 for location diagrams).

Dredging works will be undertaken via an excavator onboard the Stour, supported by the DMS Condor and Hurst (see Annex 3 for pictures of vessels). There are no restrictions on the timing of the activities. It is expected that the dredging shift will be in operation between 0600 – 2000 but this is subject to confirmation.

During the dredging works, the works may restrict the passage of vessels; however, the navigational channel remains open, but if deemed necessary by the Marine Operators from the Port Authority, the dredging activities will be temporarily relocated to allow safe passage.

Regular movements of these vessels will be undertaken in the immediate vicinity and they may be moored/in position on either side of the river. All vessels and any over-side work locations will be efficiently illuminated during hours of darkness.

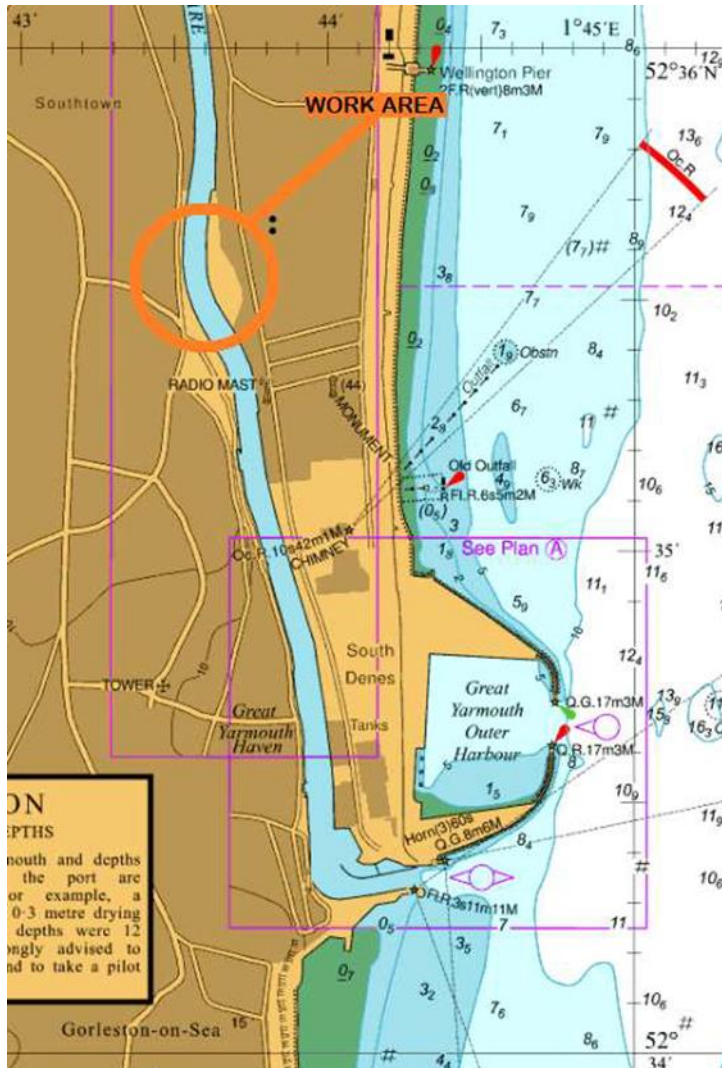

Expected dates: 17th November – 22nd November 2023. Subject to confirmation.
