

Mariners are advised that shore end cable remedial works originally planned from 23rd March have been re-scheduled and will now be completed between 13th-27th April 2026 at two locations:

- A. Kerrylamont Bay, Bute
- B. Westhaven, Cumbrae

All work will be conducted from the landside with timings determined by tidal conditions. Mariners are requested to pass these locations with additional care to avoid the effects of wash.
