

NASBO 004 - 2026

Pilot Launch Fuel Surcharge

NOTICE IS HEREBY GIVEN that, as a consequence of continued ongoing geopolitical disruptions, there has been a further significant increase in fuel costs, as such on and after 1 October 2026, pilotage services requiring the use of a pilot launch will be subject to a fuel surcharge:

£90.00 per pilotage transfer

Vessels requiring the services of an assistant pilot will incur only one fuel surcharge for boarding or landing both the pilot and the assistant pilot.

The surcharge will be levied in addition to all other applicable pilotage charges.

We will continue to monitor these costs over the coming months and provide further updates as further information becomes available.
